I recommend this ensemble on behalf of the Montreal Jazz Festival. We and our massive crowds loved both of their shows, and the big band was very easy to work with despite their large size. Jazztjz loved their performance's "incredible precision and passion," and Michael Bourne personally told me he loved it as well.

Marc-André Sarault,
Montreal Jazz Festival

"Those in our audience who didn't know what to expect were pleasantly surprised. My favorite characteristic of the concert was the variety of moods and colors created by the Orchestrotica's unique instrumentation, and those in the audience who knew what to expect seemed very happy as well."

Derek Kwan,
Lied Center of Kansas

Brian's work to transcribe the lost arrangements of Esquivel by hand is nothing short of incredible. Their concert at our festival was fantastic, and I will keep recommending this wonderful project to my peers!

Claudia Norman,
Mexico Now Festival NYC

The Orchestrotica's quintet was fantastic. It was great to see such a good turn out, and hopethy'll be back some time.

Art Valdez,
Alvas Showroom Los Angeles, CA

We heard great things from the crowd and would be happy to have Mr. Ho's Orchestrotica back!
